CATERING

Here is Chef Loryn's philosophy on catering:

"I believe that every event should be planned individually. We can do whatever you want. From soup to nuts, we can plan an unforgettable event."

There are a few things to consider when you are planning your party:

- Think about who and how many are being invited to your party.
- How many, if any, are children.
- Most importantly, think about your budget. How much can you spend, and then together we can create a menu that is designed for your tastes, guests and budget.
- Do you need servers, bartenders? A chef? We can help you with that too.

Pricing on individual items is also available, just call the store and we will be happy to quote you on individual items.
